Subject line: Tufts IR Major Seeking Career Advice

Dear Name,

I'm a junior IR major at Tufts and I found your name through the Tufts University Career Network on LinkedIn. From your LinkedIn profile, I see that you've worked at a variety of NGOs, most recently in Syria.

As I've focused my own studies on the Middle East, including time spent studying abroad in Cairo, I'd like to return to the region after college. I'd love to hear about your own experiences living and working in the region, as well as any advice you might have for me as I plan for an international job search.

I wonder if it might be possible to speak, at your convenience, on the phone or via Zoom? Thank you for considering my request.

Sincerely,  
Your Name

### The Herd message

Dear Name,

Thank you for accepting my flash-mentoring request via The Herd. As a Tufts sophomore with an interest in healthcare consulting, I'm contacting you to learn about your career and how you prepared for it while at Tufts. My experience as a Community Health major and leadership in a health-related student organization have inspired my interest and exploration of this sector.

From your profile on The Herd, I see that you had several internships prior to your first job after graduation as an Analyst. It would be helpful to hear about your experience as an intern and how that led to a full-time analyst position.

Would it be possible to schedule a 20 minute phone call to discuss my questions about healthcare consulting? I understand that you're very busy, and appreciate any time you may be able to offer.

Thank you for considering my request.

Sincerely,  
Your Name

### Important Reminder:

These emails should serve as a *guide* for your networking communication and *should not* be used in "copy and paste" messages. Be aware that many alumni will recognize template emails, especially if they receive more than one message using the same text. This lack of originality and research on the part of the writer creates a negative impression. More importantly, you'll find greater success with messages that are written in your voice and reflect your efforts to tailor the correspondence to your reader.
